Paloma Núñez Reyes

Computer science and engineering student | Interested in AI and Cybersecurity | 2024 Graduation
Griñón, Community of Madrid, Spain

Summary

Currently in my last year of computer science and engineering.
I give private classes to few students for fun.
I participate in "Duplo Program" where I give veteran support.
I am an intern in Inetum IT consultant.
I work on my final project of my degree about cyberintelligence.

I highlight my commitment with everything I set my mind to do. I am creative and like to focus on the bright side of life. I enjoy solving problems and I am very calm in any kind of situation.

I really enjoy listen and talk with different kinds of people. In my free time I usually read, travel, meet my family or friends and watch youtube videos about the ocean and personal improvement. I also love food.

I like waking up early and have a productive day, work out, meditate and live in the present moment. Every morning I write everything I am grateful for and every night I say thanks for everything that happened during the day.

We can say that I am very versatile and grateful about everything in life.

Experience

Fundación Gregal
Veterans Service
September 2023 - Present (1 month)
Madrid, Community of Madrid, Spain

Participo en el programa duplo.

Se trata de un aprendizaje mutuo y beneficios compartidos. Ese es el objetivo del programa para reducir el aislamiento de los mayores.

Para ello, se entra en contacto con esa realidad, con una formación y entrenamiento en habilidades comunicativas y sociales.

Recibo una formación a cargo de médicos, geriatras y rehabilitadores. En la que me aproximo a la vejez desde una perspectiva teórica, pero también práctica en estimulación funcional, estimulación cognitiva y cómo intervenir en el ánimo del mayor.

Se comparte tiempo con los mayores residentes, realizando actividades: paseos, lecturas, juegos de mesa, charlas sobre cómo era la vida antes y cómo es ahora, ejercicios de memoria, teatro...

Inetum

Computer Science Intern

September 2023 - Present (1 month)

Madrid, Community of Madrid, Spain

Working with Seniors as an intern of the project BBVA Holding API Channel for Inetum Spain S.A

Development in AWS Cloud environments.

Self-employed

Private Tutor

August 2020 - Present (3 years 2 months)

Madrid, Community of Madrid, Spain

Llevo dando clases particulares desde 2020 en distintos rangos de edad y formaciones, primaria, eso, bachillerato y universidad.

Aquí he aprendido a enseñar, hablar y sobretodo escuchar y entender a mis alumnos. Tengo un compromiso con ellos y procuro prepararles lo mejor que pueda para el día de mañana, explicándoles el temario adaptándome a las necesidades de cada uno, así cómo empatizando con ellos y enseñarles también cuestiones de vida y cómo afrontar las cosas.

MAPFRE

Computer Science Intern in Mapfre Tech

March 2023 - August 2023 (6 months)

Madrid, Community of Madrid, Spain

En el área de arquitectura e innovación.

He aprendido diversas metodologías de trabajo además de lenguajes como typescript y groovy. Trabajar con aws, cloud, git, entre otras ocupaciones.
